

# Smaller Budgets + Larger Class sizes + More IEP's

- = **more stress,**
- = **harder to teach**
- = **harder for students to learn**

## Brain Gym can help!

Teachers using Brain Gym report an improved classroom environment, with students showing an increase in:

- Focus and attention
- Reading and comprehension
- Ability to stay on task
- Social skills and interaction
- Creativity and self-expression
- Test scores
- Self-regulation and attitude

**Teachers say students learn faster and more easily with Brain Gym.**

### What is Brain Gym?

Used in over 87 countries around the world, Brain Gym consists of easy-to-learn, easy-to-do movement activities which help the mind, body and emotions work better together. All ages, from infants to seniors, can enjoy and benefit from Brain Gym. From birth, we learn through movement. Using Brain Gym is a powerful, effective way to access our full potential.
